A FROM MINNEAPOLIS CONVENTION CENTER

Indoor route. Start on Level 1 at the Ballroom B end of the building, beside the East Skyway access. If arriving from another hall, first make your way to Ballroom B.

A1 Enter the East Skyway.

Use the elevator or escalator from Level 1 to reach the East Skyway. This is the connection for Ivy, Hilton and downtown hotels. Use the East connection; the West Skyway leads toward the Hyatt.

A2 Continue toward the 11th & Marquette Parking Ramp.

Stay on the enclosed route across 12th Street South, then across 2nd Avenue South into the parking-ramp connection. These are elevated crossings; do not go down to the street.

A3 Take the Hotel Ivy connection.

Within the ramp's skyway corridor, follow the branch toward Hotel Ivy, back across 2nd Avenue South. Continue toward Ivy rather than onward to Hilton or Orchestra Hall.

A4 Arrive at the Skyway venue.

The hotel connection reaches the third floor. The Skyway is the glass-enclosed event space with windows on both sides and prominent white diagonal supports. Ask for the 3E Recharge Lounge if you need help locating its event entrance.

B FROM HOTEL IVY'S MAIN ENTRANCE

B1 Enter Hotel Ivy from **11th Street South** at 201 South Eleventh Street.

B2 Stop at the front desk and ask: "Which elevator takes me to the 3E Recharge Lounge in the third-floor Skyway?" Have staff identify the elevator and the route from its landing.

B3 Go to the **third floor** as directed, then to the glass-enclosed Skyway event space. Look for the windows and white diagonal supports described in A4.

PREFER TO WALK OUTSIDE?

From the MCC's 2nd Avenue South entrance beside Ballroom B, walk toward 12th Street South. Cross 12th at the marked crossing and continue along the east side of 2nd Avenue to 11th Street. Turn right onto 11th, staying on the hotel side of the street, and enter Hotel Ivy. Then follow B1–B3.

Need help? Hotel Ivy: **612-746-4600**. Ask for the Skyway event space.
For a step-free hotel route, ask the front desk to direct you to the appropriate elevator.
